She lowered her eyes. "My father remarried last month. He doesn't need me any longer. But a woman of twenty-six ought to be leaving home anyway." losers habitating that rotting section of the Boulevard east of the Hollywood Freeway. She bossed them, cursed them, loved them, and took care of them. And they loved her back. (Once, a couple of years ago, a young black buck thought an old fat lady with one eye would be easy pickings. The cops found him three days later, two blocks away, under some rubbish in an alley where he'd hidden. He had a broken arm, two cracked ribs, a busted nose, a few missing teeth, and was stone-dead from internal hemorrhaging.) She stooped closer to the ice cream and winced. "But then it's pure hell. I want to cut my leg off, have a." "Okay, if you don't like people," she says slowly, obviously recalling details. "My pa didn't". impossible for Barry, sitting so nearby and having no one to talk to himself, to avoid eavesdropping on. The computers had pronounced two men of Third Platoon killed and five wounded seriously enough to have been incapacitated. Colman was thinking to himself how nice it would be if real wars could be fought like that, when brilliant lights far overhead transformed the scene instantly into artificial day. He squinted against the sudden brightness for a few seconds, pushed his helmet to the back of his head, and looked around. The dead men and the seriously wounded who had been hit higher up on the slopes were walking down the trail in a small knot, while above them and to the sides, the other three platoons of D Company were emerging from cover. More activity was evident farther away along the gorge in both directions as other defending and attacking units came out into the open. Staff transporters, personnel carriers, and other types of flying vehicles were buzzing up from behind the more distant ridges where the sky ended. Colman hadn't realized fully how many troops had been involved in the exercise. An uncomfortable feeling began creeping into his mind - he had just brought to a premature end an elaborate game that staff people had been looking forward to for some time; these people probably wouldn't be too happy about it. They might even decide they didn't want him in the Army, he reflected philosophically..embryonic development to guide embryos into all sorts of specialized bypaths that would produce a kind of monster that had a full-sized heart, with all else vestigial, or a full-sized kidney or lung or liver or leg. With just one organ developing, techniques of forced growth (in the laboratory, of course, and not in a human womb) might make development to full size a matter of months only..regular. He's the captain of a ship and should not leave it. That's what kept him on the Edgar in the first place. But he did have a lot of training on the lander simulator back when he was so sure he'd be picked for the ground team. You know Winey, always the instinct to be the one-man show. So if he thought he could do it, he'd be down here in a minute to bail us out and grab the publicity. I understand they're trying to work out a heat-shield parachute system from one of the drop capsules that were supposed to ferry down supplies to us during the stay here. But it's very risky. You don't modify an aerodynamic design lightly, not one that's supposed to hit the atmosphere at ten thousand-plus kilometers. The landlady hadn't refunded his money, but she gave him an alibi for the knifing of an old man in the park on the 16th and the suicide of a girl in the same rooming house on the 19th. Much of the subtler pleasure of the early King Kong comes from its period charm?the naivet?, the wonderfully ,preten-tious dialogue, even the oonga-boonga black natives. All this could not in any way survive modernization; "big screen" (whatever that means these days) and color did not make up the difference, nor for the loss of other wonderfully amusing bits from a studio jungle full of dinosaurs to Fay Wray's uncovered bosom..now. You probably didn't see them on the way in, but you saw the models. The magazine has a reputation for offering variety, and to uphold that image, it seems to me that it must carefully avoid trends and formulas in an effort to publish a balance of different types of fantasy and sf. And so we continue to look for good writing and fresh ideas and entertaining narratives, and once those general criteria are satisfied, we take on whatever seems to be pleasing our writers at the time. That's the best way I know of pleasing our leaders..with the rest of the world.,He gave me a cheerful, if slightly strained, smile. "Oh, sure. He switched on the receiver..Slowly, Selene twisted the wrist back and down while the poly around them swirled in wave after wave."Was he gay?".I started to frown. It hurt hellishly. There seemed to be silver wrapped around the edges of my vision,,Robert F. Young has written thirty-nine stories for F&SF over the years, and we

can think of only three writers who have contributed as much fiction as Mr. Young (Poul Andersen, A warn Davidson, and Ron Goulart). A Robert Young story is always a pleasure because its high quality is as predictable as its subject matter is unpredictable. Here he gives us the real story behind why a certain tower in Babylon was never finished and why all great builders, from Nebuchadnezzar to Moses (Robert), have such a rough time.. "What can you do?" he asked, figuratively..I raised my brows. "You've given up being hostess for your father?" growing up, about which they were very well-informed.
