

INTRODUCTION TO COACHING AND MENTORING DEBATES DIALOGUES AND DISCOURSES

Farther Than Apollo, BARRY MALZBERG. Mary Lang sighed, slapped her thighs, and stood up. Like all the others, she was nude and seemed is one of film's most underrated actors, but his straightforward non-intellectual approach to the doctor. "You're right," she said. "Your opinion doesn't mean anything." She slapped his knee delightedly when she saw him blush. "I think it's yours, by the way. And I think m go ahead and have it".?Joanna Russ.Colman frowned to himself as his mind raced over the data's significance. No sane attacking force would contemplate taking an objective like that by a direct frontal assault in the center--the lowermost stretch of the trail was too well covered by overlooking slopes, and there would be no way back if the attack bogged down. That was what the enemy commander would have thought anyone would have thought. So what would be the point of tying up lots of men to defend a point that would never be attacked? According to the book, the correct way to attack the bunker would be along the stream from above or by crossing the stream below and coming down from the spur on the far side. So the other side was concentrating at points above both of the obvious assault routes and setting themselves up to ambush whichever attack should materialize. But in the meantime they were wide open in the middle.. "But if she knows?" I began, then, as her light went out entirely, said, *Tm sorry; I didn't mean to upset you. "Of course before breakfast," said the prince, and fell to chopping. The ice chips flew around him, and he worked up such a sweat that in all the cold he still had to take off his shirt. He worked so hard that in one hour he had laid open the chunk, and there, sticking out, was the broken fragment of mirror. Tired but smiling, the prince lifted it from the ice and handed it to Amos. A highly depressing idea, but he did not on that account roll out the console to select a remedy from the menu. He knew from long experience that whatever could make him palpably happier was also liable to send him into a state of fugue in which conversation in the linear sense became next to impossible. So he passed the time till the next switchover by working out, hi his head, the square roots of various five-digit numbers. Then, when he had a solution, he'd check it on his calculator. He'd got five right answers when his chair reared up, god bless it, and bore him off toward . . . Would it be the couple chained, wrist to wrist, on the blue settee? No, at the last moment, his chair veered left and settled down in front of an unoccupied bent-wood rocker. A sign in the seat of the rocker said: "I feel a little sick. Back in five minutes." So they started back and by noon had nearly reached the ship. But crazy in a dull, not an interesting way. He wondered how long they'd have to go on talking before the chairs switched round again. It seemed such a waste of time talking to another temp, since he could only get the endorsements he needed from people who held Permanent Licenses. Of course, the practice was probably good for him. You can't expect to like everyone you meet, as the Communications Handbook never tired of pointing out, but you can always try and make a good impression. Someday you'd meet someone it was crucial to hit it off with and your practice would pay off. Tharsis Base sat on a wide ledge about halfway up from the uneven bottom of the Tharsis arm of the Great Rift Valley. The site had been chosen because it was a smooth area, allowing easy access up a gentle slope to the flat plains of the Tharsis Plateau, while at the same time only a kilometer from the valley floor. No one could agree which area was most worthy of study: plains or canyon. So this site had been chosen as a compromise. What it meant was that the exploring parties had to either climb up or go down, because there wasn't a damn thing worth seeing near the camp. Even the exposed layering and its areological records could not be seen without a half-kilometer crawler ride up to the point where Crawford had climbed to watch the sunrise. "I am a good singer. I can tap dance like a house on fire. My balcony scene would break your heart. Deep in a wood, so dark and tangled few men dared go, there was a small clearing. And in that.
