

A POCKET LIST OF BRITISH MARINE MOLLUSCA

Cinderella, however, considered the question from a literal standpoint. "Well," she said, "we haven't ever really talked together, not seriously, but you certainly ought to have a license." .IMPORTANT.In the swamp, Amos waited until the prince had found him. "Did you have any trouble?" Amos asked..trying to scrub the last bit of color off the grey boards. "Good evening to you too," said Amos. "I'm.frostcap..man flung out his cape, grabbed Amos by the hand, and ran out into the street..infants would survive long after birth without the advantages of modern medical technique. She nibbed her eyes and peered into the darkness.."I suppose, then," said Amos, "Tve done well to avoid coming here." And he turned around and left..The suitcase, still beside the couch, hadn't been unpacked?except for the clothes hanging in the closet and the kitchen utensils. There was underwear, socks, an extra pair of shoes, an unopened ream of paper, a bunch of other stuff necessary for his writing, and a dozen or so paperbacks. The books were rubber-stamped with the name of a used-book store on Santa Monica Boulevard. They were a mixture: science fiction, mysteries, biographies, philosophy, several by Colin Wilson..lack. Siamese twins. All those people died so I could stay alive." There was no emotion in his voice. He was detached, talking about someone else. "He kept me alive. I'll die without him." His eyes met mine again. "He was insane, I think. I thought at first I'd go mad too, but I didn't I think I didn't I never knew what he was going to do, who he would kill. I didn't want to know. He was very clever. He always made it look like an accident or suicide when he could. I didn't interfere. I didn't want to die. We had to have blood. He always did it so there was lots of blood, so no one would miss what he took." His eyes were going empty again..The stories in this book cover the period from our November 1976 issue through the middle of.Once there was a poor man named Amos. I don't know how I should react..The only man speaking was tall, thin, and grey. He wore a grey cape, grey gloves, grey boots, and his hair was grey. His voice sounded to Amos like wind over mouse fur, or sand ground into old velvet The only thing about him not grey was a large black trunk beside him, high as his shoulder. Several rough and grimy sailors with cutlasses sat at his table?they were so dirty they were no color at all!.losers habitating that rotting section of the Boulevard east of the Hollywood Freeway. She bossed them, cursed them, loved them, and took care of them. And they loved her back. (Once, a couple of years ago, a young black buck thought an old fat lady with one eye would be easy pickings. The cops found him three days later, two blocks away, under some rubbish in an alley where he'd hidden. He had a broken arm, two cracked ribs, a busted nose, a few missing teeth, and was stone-dead from internal hemorrhaging.)"What makes you think that women are a natural resource, Craw-ford?" she said, slowly and.That, I think, would be a waste of time. In cloning, the genetic contents of new organisms remain."It is Amos!" cried Billy Belay, thumping after her on his wooden leg..Dramatization is another. I (like many reviewers) often stage a tittle play called The Adventures of Byline. Byline (or "I") is the same species of creature as the Kindly Editor or the Good Doctor, who appear from time to time in these pages. That is, she is a form of shorthand. When Byline rewrites story X, that doesn't mean that I?the real, historical personage?actually did or will or wish to rewrite story X, or that I expect its real,

historical author to rewrite it to Byline's prescription, any more than my saying that "my" copy of Bug Jack Ban-on tried to punch "me" in the nose means that such an event really happened. Pauline Kael's *Movie Loon* is another such fiction; these little creatures we send scurrying about the page are not our real, live selves, and their exploits are dictated more by the exigencies of our form than by a desire for personal glory.. "Yeah," says Jain.. "What's his first name?"..scabs, but I guess that's all h is ?talk. Anyway, nobody tried to get in. Not that they'd have succeeded if..After that, Swyley had been declared "maladjusted" and transferred to D Company, which was where all the misfits and malcontents ended up. Now his powers returned magically only when no officers were anywhere near him except for Captain Sirocco, who ran D Company and didn't care how Swyley got his answers as long as they came out right. And Sirocco didn't care if Swyley was a misfit, since everyone else in D Company was supposed to be anyway..152.1 thought you like to sleep late," I said..221.His eyes dropped and he was silent for a moment "I want to tell you. Their expression seemed oddly out of character with the monologue she'd just delivered. They were piercing (as against vulnerable) steely-gray eyes that stared defiance from a face all sags and wrinkles. Without the contradiction of such eyes, her face would have seemed ruined and hopeless; with them, she looked just like an ancient centurion in a movie about the Roman Empire..went on as if I hadn't noticed. "I'm inquiring about a man named Andrew Detweiler." The terror trickled.."And well use it. You just speak up, I*11 be listening." She started to say something, then thought of something else. "Say, what are your ideas on a woman bossing this project? I've had to fight that all the way from my Air Force days. So if you have any objections you might as well tell me up front".The grey man looked after Amos until he disappeared. Then he put his hand on his head, which was beginning to throb a little, and leaned against the black trunk which had been carried to the deck..It is also possible, however, though not usual, for a woman to bring two different egg cells to fruition at the same time. If both are fertilized, two children will be bom who are each possessed of genetic equipment different from the other. What results are "fraternal twins" who need not be of the same sex and who need not resemble each other any more than siblings usually do..?Harvey Abramson.257."We're waiting for a reply," Crawford said. "Insignificant seismic above threshold at eight hundred yards. Downwind ratio less than five points up at four hundred. Negative corroboration from acoustics-background swamping." The computers were unable to identify vibration patterns correlating with human activity in the data coming in from the sensing devices quietly scattered around the gorge by low-flying, remote piloted "bees" on and off throughout the night; the chemical sensors located to the leeward of the suspected decoys were detecting little of the odor molecules characteristic of human bodies; the microphones had yielded nothing in the way of coherent sound patterns, but this was doubtless because of the white-noise background being generated in the vicinity of the stream. Although the evidence was only partial and negative at that, it supported Swyley's assertion that the main road down to the objective was, incredibly, virtually undefended for the time being..148.ad hoc task forces instantly created to investigate everything from general inefficiency down to the detailed operation of the Computer Center. Someone immediately spilled the beans about Zorphwar. (I suspect it was J.L., covering his ass.) Friday afternoon Westland came slamming into my office to ask about a thousand questions about our schedules and the cost of running Zorphwar. I tried to get him to try using the program, but he was too upset to listen to reason. He gave me one hour to produce a full report justifying the project and went storming back up to the executive wing. "It is so high and so cold up there that you will never reach it," said the Wind. "Even the wizard had to ask my help to put it there." "No insult intended, Mary," Weinstein said gently. "But, yes, we have. It's the opinion of the people Earthside that you couldn't do it. They've tried some experiments, coaching some very good pilots and putting them into the simulators. They can't do it, and

we don't think you could, either." I've got to admit, though, that before I yelled my nay I had a bad moment. I'm still not sure I did right. Suppose the Company Representative was telling the truth and the Project really is for the benefit of common people like ourselves? If that's so, then we aren't acting in our own best interests at all; we're just pulling the rug out from under our own feet..The house lights momentarily dim and the crowd noise raises a few decibels.
