He dreamed of clouds passing over the shores of islands, and a high, round, green hill that stood. "What is it?" Weatherworkers used to carry a leather sack in which they said they kept the winds, untying it to. But he made no spell. He had no magic left in him. It was gone, run out of him into this terrible hill, into the terrible ground under him, gone. He was no wizard, only a man like the others, powerless. They worked and taught in the Great House. They saw it go up stone on stone, every stone steeped in spells of protection, endurance, peace. They saw the Rule of Roke established, though never so firmly as they might wish, and always against opposition; for mages came from other islands and rose up from among the students of the school, women and men of power, knowledge, and pride, sworn by the Rule to work together and for the good of all, but each seeing a different way to do it. "But she was only a girl like the others, too," Mead said, and hid her face. "A good girl," she whispered. Him, but she watched him in wonder. years old. Celebrate it! "Lovers? Acquaintances? Men and women came to be taught and to teach. Many of these had a hard time. "To Roke?" She stared. "To Roke, Di? Then you really do have the gift --you could be a sorcerer?" face in the black lane, hardly able to see where the other was. Dragonfly put out her groping hand. Religion was a unifying element even among the most warlike tribes. There were hundreds of Truce Places on the Four Lands, where no warfare or dispute was permitted. Kargish religion was a domestic and community worship of the Old Powers, the chthonic or gaeian forces manifest as spirits of place. They were worshiped at the site and at home altars with offerings of flowers, oil, food, dances, races, sacrifices, carvings, songs, music, and silence. Worship was both casual and ritual, private and communal. There was no priesthood; any adult could perform the ceremonies and teach children to do so. This ancient spiritual practice has continued, unofficially and sometimes in hiding, under the newer, institutional religions of the Twin Gods and the Godking. asked, fascinated, when she saw it, and when he answered with a laugh, "Rosemary," she laughed. Rose watched her. She knew she did not know who Man was or what she might be. A big, strong, awkward, ignorant, innocent, angry woman, yes. But ever since she was a child Rose had seen something more in her, something beyond what she was. And when Irian looked away from the world like that, she seemed to enter that place or time or being beyond herself, utterly beyond Rose's knowledge. Then Rose feared her, and feared for her. His voice was the voice of the slave in the stone tower. It was she who knew the true name of her eyes with her apron. "Was that what broke you," she said, "the drink?" The Patterner never came to her much before noon, so she had the mornings free. She was used to. Dulse had seen young men weep for joy at the birth of a first son. He had seen poor men pay. Only truth." when he was talking to the work, and insisted that he do his carpentry with tools, in silence. Diamond sat upright and still. He had been getting some of his father's height and girth lately, and looked very much a man, though a very young one. Of late, entering always deeper into the mysteries of a certain lore-book brought back from the Isle of Way by one of Losen's raiders, Gelluk had become indifferent to most of the arts he had learned or had discovered for himself. The book convinced him that all of them were only shadows or hints of a greater mastery. As one true element controlled all substances, one true knowledge contained all others. Approaching ever closer to that mastery, he understood that the crafts of wizards were as crude and false as Losen's title and rule. When he was one with the true element, he would be the one true king. Alone among men he would speak the words of making and unmaking. He would have dragons for his dogs. Otter felt as if he were being brought back to vivid life from interminable, dreary, dazed half sentience. At the wizards touch he did not feel the horror of the spellbond, but rather a gift of energy and hope. He told himself not to trust this man, but he longed to trust him, to learn from him. Gelluk was powerful, masterful, strange, yet he had set him free. For the first time in weeks Otter walked with unbound hands and no spell on him. softly forward, her slave oarsmen sleeping on their benches, the free men of her crew all asleep. The roasting pit took up the center of a huge domed chamber. Hurrying, sticklike figures black against the blaze shoveled and reshoveled ore onto logs kept in a roaring blaze by great bellows, while others brought fresh logs and worked the bellows sleeves. From the apex of the dome a spiral of chambers rose up into the tower through smoke and fumes. In those chambers, Licky had told him, the vapor of the quicksilver was trapped and condensed, reheated and recondensed, till in the topmost vault the pure metal ran down into a stone trough or bowl--only a drop or two a day, he said, from the low-grade ores they were roasting now. now what it once was-- if we had more people of the true art gathered here, teaching and learning. invasion. If Diamond had been born to that kind of power, if that was his gift, then all Golden's dreams and plans of training him in the business, and having him help in expanding the carting route to a regular trade with South Port, and buying up the chestnut forests above Reche -- all such plans dwindled into trifles. Might Diamond go (as his mother's uncle had gone) to the School of Wizards on Roke Island? Might he (as that uncle had done) gain glory for his family and dominion over lord and commoner, becoming a Mage in the Court of the Lords Regent in the Great Port of Havnor? "Well, this boy did learn at last to tame his anger and control his power. And a very great power it was. Whatever art he studied came easy to him, too easy, so that he despised illusion, and weatherworking, and even healing, because they held no fear, no challenge to him. He saw no virtue in himself for his mastery of them. So, after the Archmage Nemmerle had given him his name, the boy set his will on the great and dangerous art of summoning. And he studied with the Master of that art for a long time.. "Why? Everyone, I tell you!" "It'll stop by midday," the wizard told the chickens. He fed them and squelched back to the house with three warm eggs. When he was a child he had liked to walk in mud. He remembered enjoying the cool of it rising between his toes. He still like to go barefoot, but no longer enjoyed mud; it was sticky stuff, and he disliked stooping to clean his feet before going into the house. When he'd had a dirt floor it hadn't mattered, but now he had a wooden floor, like a lord or a merchant or an archmage. To keep the cold and damp out of his bones. Not his own notion. Silence had come up from Gont Port, last spring, to lay a floor in the old house. They had had one of their arguments about it. He should have known better, after all this time, than to argue with Silence.. bower upstream, he went there, carrying Veil's basket as an excuse. "May I talk to you?" he said.. He broke free, stood up, stooping; neither of them could stand straight in the low cabin. Clenching and unclenching his hands, he stood as far from her as he could, his back to her.. "He lay as if dead, cold, his heart not beating, yet he breathed. The Herbal used all his art, but could not rouse him. "He is dead," he said. "The breath will not leave him, but he is dead." So we mourned him. Then, because here was dismay among us, and all my patterns spoke of change and danger, we met to choose a new Warden of Roke, an Archmage to guide us. And in our council we set the young king in the Summoner's place. To us it seemed right that he should sit among us. Only the Changer spoke against it at first, and then agreed.. without the eight months at Adapt. But now, perhaps even more than before, I did not want to go. "The young men come to me and they say, "What good is it? Can you find gold?" they say. "Can you. peoples.. "Why did you break

She stood up and after a moment walked out of the stableyard, off across the hill, on the path that went around it halfway up. One of the dogs, her favorite, a big, ugly, heavy-headed hound, followed her. She stopped on the slope above the marshy spring where Rose had named her ten years ago. She stood there; the dog sat down beside her and looked up at her face. No thought was clear in her mind, but words repeated themselves: I could go to Roke and find out who I am..She was getting used to his strange face now and was able to read it. She thought that he looked sad. His way of speaking was harsh, quick, dry, peaceable. The men of the Isle are not always wise, eh?" he said. "Maybe the Doorkeeper." He looked at her now, not glancing but squarely, his eyes catching and holding hers. "But there. In the wood. Under the trees. There is the old wisdom. Never old. I can't teach you. I can take you into the Grove." After a minute he stood up. "Yes?".The Patterner never came to her much before noon, so she had the mornings free. She was used to solitude, but still she missed Rose and Daisy and Coney, and the chickens and the cows and ewes, and the rowdy, foolish dogs, and all the work she did at home trying to keep Old Iria together and put food on the table. So she worked away unhurriedly every morning till she saw the mage come out from the trees with his sunlight-coloured hair shining in the sunlight..to living voice.."What Master?".nothing, though my eyes were open.
