

ENCOUNTERING FREUD THE POLITICS AND HISTORIES OF PSYCHOANALYSIS

The sidewalks were crowded with businessmen in suits, hippies in flamboyant garb, groups of smartly attired suburban ladies in town to shop, and the usual forgettably dressed rabble, some smiling and some surly and some mumbling but as blank-eyed as mannequins, who might be hired assassins or poets, for all he knew, eccentric millionaires in mufti or carnival geeks who earned their living by biting heads off live chickens..He swore that he would throw away all memory of this incident, as well. In Caesar Zedd's best-selling *How to Deny the Power of the Past*, the author offers a series of techniques for expunging forever all recollection of those events that cause us psychological damage, pain, or even merely embarrassment. Junior went to bed with his precious copy of this book and a snifter of cognac filled almost to the brim..With the dead woman's guest on the way, minutes were precious. Attention to detail was essential, however, regardless of how much time was required to properly stage the little tableau that might disguise murder as a domestic accident..Junior's agony might have made him howl like a cankered dog or might even have dropped him to his knees if he hadn't used the pain to fuel his anger. His knobby countenance was so sensitive that the light breeze flailed his skin as cruelly as if it had been a barbed lash. Empowered by rage even more beautiful than his countenance was monstrous, he crossed the parking lot, looking through car windows in the hope of seeing keys dangling from an ignition..The ghost cop was forty feet behind him, beyond ranks of other pedestrians, every one of whom might as well have been faceless now, smooth and featureless from brow to chin, because suddenly Junior could see no countenance other than that of the walking dead man. The haunting visage bobbed up and down as the grim spirit strode along, vanishing and reappearing and then vanishing again among all the bobbing and swaying heads of the intervening multitudes..Clutching the blanket, she thought of the funerary lap robes that red the legs of the deceased in their caskets, for she felt sometimes cove half dead. Both feet in this world-yet walking beside Joey on a strange road Beyond..As instructed earlier by phone, Junior purchased a large box of Raisinettes and a box of Milk Duds at the refreshment stand, and then he sat in one of the last three rows in the center section, eating the Milk Duds, grimacing at the sticky noises his shoes made when he moved them on the tacky floor, and waiting for Google to find him.. "And," Joshua cautioned, "you better prepare for a long day. I'm pretty sure Dr. Chan will want to consult with an oncologist." When Victoria finally calmed her racing heart, she returned the spoon to the tray on the nightstand, stoppered the carafe, and said, "That's enough for now, Mr. Cain. In your condition, even too much I melted ice might trigger renewed vomiting." To the left, a door led to a back staircase, accessible with the special key already in his hand. To the right: a key-operated service elevator for which he'd been provided a separate key..The guy appeared vulnerable, his arms occupied with the kid and the bag, and Junior considered bursting out of the Mercedes, striding straight to the Celestina-humping son of a bitch, and shooting him point-blank in the face. Brain-shot, he would drop quicker than if the headless horseman had gotten him with an ax, and the kid would go down with him, and Junior would shoot the bastard boy next, shoot him in the head three times, four times just to be sure..A stab of horror punctured Celestina as she failed to repress a mental image of a carnival-sideshow monster, half dragon and half insect, coiled in her sister's womb. She hated the rapist's child but was appalled by her hatred, for the baby was blameless..When Nolly sighed and frowned, his lumpish face seemed in danger of sliding off his skull, like oatmeal oozing off a spoon. "Mr. Cain, much as I regret it, I'm afraid I'm going to have to return half of the retainer you gave me." Sometimes Celestina marveled at how intimately and inextricably the tendrils of tragedy and joy were intertwined in the vine of life. Sorrow was often the root of future joy, and joy could be the seed of sorrow yet to come. The layered patterns in the vine were so complex, so enrapturing in their lush detail and so fearsome in their wild inevitability, that she could fill uncountable canvases, through many lifetimes as an artist, striving to capture the enigmatic nature of existence, in all its beauty dark and bright, and in the end merely suggest the palest shadow of its mystery..Now the hole was revealed. Damp earthen walls. In the shadow of the casket, the bottom of the grave was dark and hidden from view..Speaking of bosoms, everywhere in the loft were braless girls in sweaters and miniskirts, braless girls in T-shirts and miniskirts, braless girls in silk-lined rawhide vests and jeans, braless girls in tie-dyed sash tops, with bared midriffs, and calypso pants. Lots of guys moved through the crowd, too, but Junior barely noticed them..He could have killed someone named Henry or Larry, without risk of creating a Bartholomew pattern that would prickle like a pungent scent in the hound-dog nostrils of Bay Area homicide detectives. But he restrained himself..The beetle-green Pontiac waited in the driveway, with a shine that tempted nature to throw around some bad weather. Joey always kept a spotless car, and he probably wouldn't have had time to earn a living if he had resided in some shine-spoiling climate rather than in southern California.. "What are you strongest in?" They were driven to St. Mary's by Detective Bellini in a police sedan. Tom Vanadium-a friend of her father's whom she had met a few times in Spruce Hills, but whom she didn't know well--literally rode shotgun, tensed to react, wary of the occupants of other vehicles on..Angel followed him and observed as he climbed a stepstool and unhooked the telephone handset. He dialed with little pause between digits, and spoke with each of his uncles..Briefly, Junior felt humiliated. He wanted to drag the detective out of the car and stomp on his smug, dead face..Vanadium nodded. "And I'd like to hear about Cain's reactions in more detail. I've read your reports, of course, and they've been thorough, but necessarily condensed. There'll be lots of subtleties that only reveal themselves in conversation. Often, the apparently insignificant details are the most important to me when I'm devising strategy." He usually ate lunch alone in his office. The room was the size of an elevator, but of course didn't go up or down. It went sideways, however, in the sense that herein Paul was transported into wondrous lands of adventure.. "It isn't just the rotten railing," Junior said, still paging through the report, his outrage growing. "The stairs are unsafe." Dragonfly. That was another thing. Junior hadn't gotten his noon meal,

because the spirit of Vanadium had nearly caught up with him when he'd been browsing for tie chains and silk pocket squares before lunch. Then he missed dinner, as well, because he had to maintain surveillance on Celestina when she didn't go straight home from the gallery. He was hungry. He was starving. This, too, she had done to him. The bitch..He'd acted boldly, recklessly, without scoping the territory to be sure Prosser was alone. The accountant lived by himself, but a visitor might be present..Junior was stunned that the bitch had come back into his life, to ruin him, almost two years later. Zedd teaches that the present is just an instant between past and future, which really leaves us with only two choices-to live either in the past or the future; the past, being over and done with, has no consequences unless we insist on empowering it by not living entirely in the future. Junior strove always to live in the future, and he believed that he was successful in this striving, but obviously he hadn't yet learned to apply Zedd's wisdom to fullest effect, because the past kept getting at him. He fervently wished he hadn't simply broken up with Tammy Bean, but that he had strangled her instead, that he had strangled her and driven her corpse to Oregon and pushed her off a fire tower and bashed her with a pewter candlestick and sent her to the bottom of Quarry Lake with the gold Rolex stuffed in her mouth.."Better hold on tight to her," Wally warned Celestina, braking to a halt at the intersection. "She'll float up and away, then we'll have to call the fire department to get her down."..In fact, attorneys for the potential plaintiffs felt that Nork, Hisscus, and Knacker were too willing to reach an accommodation, and they met the trio's conciliation with high suspicion. Naturally, the state didn't want to defend against a claim involving the death of a beautiful young bride and her unborn baby, but their willingness to negotiate so early, from such a reasonable posture, implied that their position was even weaker than it appeared to be..Although first-rate, the surgical team wasn't able to reattach the badly torn extremity. Tissue damage was too extensive to permit delicate bone, nerve, and blood-vessel repair.."Quick, very quick," he warned, helping Grace through the fire framed window and onto the roof of the porch..As they savored the icy martinis, she asked about the client, and Nolly said, "He bought the story. I won't be seeing him again."..faiths and inhibiting rules that confused humanity, when he was sufficiently enlightened to believe only in himself, he would be able to trust his instincts, for they would be free of society's toxic views, and he would be assured of success and happiness if always he followed these gut feelings..Whether or not the visitor in the client's chair had ever known much romance, he unquestionably had experienced too much adventure and more than his share of tragedy. Thomas Vanadium's face was a quake-rocked landscape: cracked by white scars like fault lines in a strata of granite; the planes of brow, cheeks, and jaws canted in odd relationships to one another. The hemangioma that surrounded his right eye and discolored his face had been with him since birth, but the awful damage to his bone structure was the work of man, not God..Dressed entirely in a shade of pink that darkened to rouge when wet, Angel squealed and deserted Barty. Spotted-streaked-splashed, with false tears on her cheeks, with a darkly glimmering crown of rain jewels in her hair, she raced up the steps as though she were a princess abandoned by her coachman, and allowed herself to be scooped into her grandmother's arms..Agnes had read the last half of Red Planet to Barty just the previous night, but he brought the book with him, to read it again..It was hard for him to lie. He thought he was awkward at it because he had no practice. Hound knew better. He knew that magic itself resists untruth. Conjuring, sleight of hand, and false commerce with the dead are counterfeits of magic, glass to the diamond, brass to the gold. They are fraud, and lies flourish in that soil. But the art of magic, though it may be used for false ends, deals with what is real, and the words it works with are the true words. So true wizards find it hard to lie about their art. In their heart they know that their lie, spoken, may change the world..Recently, Wally administered to Angel a set of apperception tests for three-year-olds, and the results indicated that she might not ever be a math whiz or a verbal gymnast, but that she might be highly talented in other ways. Her appreciation of color, her innate understanding of the derivation of secondary hues from the primary colors, her sense of spatial relationships, and her recognition of basic geometric forms regardless of the angle at which they were presented were all far beyond what was exhibited by other kids her age. Wally said she was visually, rather than verbally, gifted, that she would undoubtedly exhibit increasing precociousness in matters artistic, that she might follow Celestina's career path, and that she might even prove to be a prodigy..For a spirit, the maniac lawman appeared disturbingly solid. He wore a tweed sports jacket and slacks that, as far as Junior could tell, were the same clothes he'd worn on the night he died. Apparently, even the ghosts of Sklent's atheistic spiritual world were stuck for eternity in the clothes in which they had perished..After the latest concerned nurse departed, Sheena leaned close. She cruelly pinched Junior's cheek between thumb and forefinger, as if she' might tear off a gobbet of flesh and pop it into her mouth..The walls were barren. The only art in these rooms was a single sculpture. Junior was taking university extension courses in art appreciation and almost daily haunting the city's countless galleries, constantly deepening and refining his knowledge. He intended to refrain from acquiring a collection until he was as expert on the subject as any director of any museum in the city.."There is no king in Earthsea," the young man said, stern and righteous, "In my master's service, then," Hound amended, patient..He pressed his right ear to the door, held his breath, heard nothing, and addressed the top lock first. Quietly, he slid the thin pick of the lock-release gun into the key channel, under the pin tumblers..that he could not entirely analyze. Any amateur magician-indeed, anyone willing to practice enough hours, magician or not-could master this trick. It was mere skill, not sorcery. "What was your motive, Enoch?"..Junior glimpsed Vanadium first in profile-and then, as the cop rode down and away, only the back of his head. He hadn't seen this man in almost three years, yet he was instantly certain that this was no coincidental look-alike. Here went the filthy-scabby-monkey spirit itself..Startled, Junior sat up straight, clutching the silencer-fitted pistol, but the cruiser didn't abruptly brake and pull to the curb in front of the Mercedes, as he expected..On the counter beside the bathroom sink stood an open box of BandAids in a variety of sizes, a bottle of rubbing alcohol, and a bottle of iodine..out of hand. "Well ... yes, I suppose so." Spineless, unethical quack bastard, Junior thought bitterly.."Chateau Le Bucks, 1886. We can have

a bottle of that or you could buy a new car, and personally I believe thirst comes before transportation." In her campaign to keep her weight gain to a minimum, anorexia was her ally. She learned to find pleasure in hunger pangs..just as Sinatra broke into song again, Junior thought he heard a footstep on the wood floor of the hallway, and the creak of a board. The music masked the sounds of the visitor's approach if, indeed, he was approaching..The hall was deserted. Then a woman came out of one of the offices and walked toward the gallery, without glancing at him..Junior knelt beside her and pressed two fingers to the carotid artery in her neck. She had a pulse, maybe a little irregular but strong..Edom would have judged this a perfect day-except for the earthquake weather. He was convinced that the Big One would bring the coastal cities to ruin before twilight..Reverend White's murder received significant coverage throughout the nation, especially in West Coast papers, because of its perceived racial motivation and because it involved the burning of a parsonage..A deep storm of silence, anti-thunder, the house fully drenched in a muffling rain of soundlessness..While always Agnes held fast to hope, she knew that easy hope was usually false hope, and she didn't allow herself to speculate, even briefly, that his problem had resolved itself. Other symptoms-halos and rainbows-had disappeared for a time, only to return..Junior had walked along the big show windows, studying the two White paintings displayed to passersby, appalled by their beauty, when suddenly the door had opened and a gallery employee had invited him to come in. No printed invitation needed, no cool test to pass, no bouncers keeping the gate. Such easy accessibility served as proof, if you needed it, that this was not real art..Blink, the living room. Turning off Sinatra halfway through "It Gets Lonely Early.."holding hands as they watched John Wayne in *The Searchers*, David Niven in *Around the World in 80 Days*. They were so young then, sure they would live forever, and they were still young now, but for one of them, forever had arrived.."Did they rush you straight in here or did you arrange all the insurance matters at reception, Mr. Pinchbeck?" He placed a phone call to Kaitlin Hackachak, his trollish and avaricious sister-in-law, asking her to dispose of Naomi's things, their furniture, and whatever of his own possessions he chose to leave behind. Although she had been awarded a quarter of a million dollars in the family settlement with the state and county, Kaitlin would be at the house by dawn's first light if she thought she might make ten bucks from liquidating its contents..The galerieur's icy demeanor thawed marginally at this proof of taste and financial resources. He either smiled or grimaced at a vague but unpleasant smell-hard to tell which-and identified himself as the owner, Maxim Coquin..Certain disbelief insulated her against immediate surprise. She shook her head. "That's not possible." "July 14, 1960, in Guatemala City, Guatemala, a fire in a mental hospital-two hundred twenty-five dead." Weatherworkers used to carry a leather sack in which they said they kept the winds, untying it to let a fair wind loose or to capture a contrary one. Maybe it was only for show, but every weatherworker had a bag, a great long sack or a little pouch..She wanted to tell him not to say these queer things, not to talk this way, yet she couldn't speak those words. When Barty asked her why, as inevitably he would, she'd have to say she was worried that something might be terribly wrong with him, but she couldn't express this fear to her boy, not ever. He was the lintel of her heart, the keystone of her soul, and if he failed because of her lack of confidence in him, she herself would collapse into ruin..The formless apprehension with which she had awakened at 1:50, Tuesday morning, had returned to her from time to time during the past couple days. Now, here it came again, pinching her throat and tightening her chest-at last beginning to take form..Perhaps because Celestina was her father's daughter, with his faith in humanity, she was always deeply moved by the kindnesses of strangers and saw in them the shape of a greater grace. "Does your wife know what a lucky woman she is?" Indeed, the winter storm had dampened neither his hair nor his clothes. The rain appeared to slide away from him a millimeter before contact, as though the water and the man were composed of matter and antimatter that must either repel each other or, on contact, trigger a cataclysmic blast that would shatter the very foundation of the universe..He was uncomfortable, achy, thirsty, but he remained utterly still and observant. After a while, he realized that the sense of oppression with which he'd awakened was not entirely a psychological symptom: Something heavy lay across his abdomen. And it was cold-so cold, in fact, that it had numbed his middle to the extent that he hadn't immediately felt the chill of it. Shivers coursed through him. He clenched his jaws to prevent his teeth from chattering and thereby alerting the man in the chair. Although he never took his eyes off the corner, Junior became preoccupied with trying to puzzle out what was draped across his midsection. The mysterious observer made him sufficiently nervous that he couldn't order his thoughts as well as usual, and the effort to prevent the shivers from shaking a sound out of him only further interfered with his ability to reason. The longer that he was unable to identify the frigid object, the more alarmed he became. He almost cried out when into his mind oozed an image of Naomi's dead body, now past the whitest shade of pale, as gray as the faint light at the window and turning pale green in a few places, and cold, all the heat of life gone from her flesh, which was not yet simmering with any of the heat of decomposition that would soon enliven it again..If the ace of diamonds, in quartet, must be taken seriously, then why not the rest of the draw?.Junior discovered more tears than could have been found in ten thousand onions. His wife and his unborn baby. He had been willing to sacrifice his beloved Naomi, but maybe he would have found the cost too high if he had known that he was also sacrificing his first-conceived child. This was too much. He was bereft..Too much, far too much to contend with, and so unfair: finding the Bartholomew needle in the haystack, hives, seizures of vomiting and diarrhea, losing a toe, losing a beloved wife, wandering alone through a cold and hostile world without a heart mate, humiliated by transvestites, tormented by vengeful spirits, too intense to enjoy the benefits of meditation, Zedd dead, the prospect of prison always looming for one reason or another, unable to find peace in either needlework or sex..She pushed her chair back from the table and got to her feet, and everyone followed her example..And the irony of ironies: With her talent deepening to a degree that she had never dared hope it would, with collectors responding to her vision to an extent she had never imagined possible, with her goals already exceeded, and with great vistas of possibility opening before her, she would throw it all

away with some regret but with no bitterness if required to choose between art and Angel, for the child had proved to be the greater blessing. Phimie was gone, but Phimie's spirit fed and watered her sister's life, bringing forth a great abundance..Hers were the most feminine hands he'd ever seen. Slender, soft, prettier than Naomi's. He had no idea what she was talking about.."He was born yesterday, not today," Edom said glumly. "When the thousand-year quake hits, skyscrapers will pancake, bridges crumble, dams break. In three minutes, a million people will die between San Diego and Santa Barbara."..Already the fortune foretold, which she had strived to dismiss as a game with no consequences, was coming true.."Sulk away," the man said. "If you don't like this work, there's always the roaster."..If they were suspicious of him, they showed no obvious alarm. The three went inside in no particular rush, and judging by their demeanor, Junior decided that they hadn't spotted him, after all.."If I had a wife, she wouldn't feel too lucky. I'm not of the persuasion that wants a wife, dear."..make a worrywart life-insurance salesman like me seem just as light hearted as a schoolgirl."..He was surprised they had come so soon, less than twenty-four hours after the tragedy. This was especially unusual, considering that a homicide detective was obsessed with the idea that rotting wood, alone, was not responsible for Naomi's death..By the time all the details of mortuary and cemetery services were settled, Walter Panglo had a nervous tic in his left cheek. His eyes were open wide, as if he'd been so startled that his lids froze in a position of ascension, locked by a spasm of surprise. His hands must have grown clammy; he blotted them repeatedly on his suit..Having gotten the new roof for them at cost, Agnes subsequently put together donations from a dozen individuals and one church group to cover all but two hundred dollars of the outlay.."It isn't that, Daddy. You remember, when we were all together the day before yesterday, how afraid Phimie was of this man. Not just for herself ... for the baby.".."Peach, raisin, walnut pies," Agnes said, "with regular bottom crust and a chocolate-crackle top crust."..And although Simon would have denied it, would even have joked that a conscience was a liability for an attorney, he possessed a moral compass. When he traveled too far along the wrong trail, that magnetized needle in his soul led him back from the land of the lost..So it became dangerous to practice sorcery, except under the protection of a strong warlord; and even then, if a wizard met up with one whose powers were greater than his own, he might be destroyed. And if a wizard let down his guard among the common folk, they too might destroy him if they could, seeing him as the source of the worst evils they suffered, a malign being. In those years, in the minds of most people, all magic was black..Licky took him down into the mines to show him the gangues, the kinds of earth the ore was likely to occur in. A few miners were working at the end of a long level..Aware of the dangers of dehydration, he drank a bottle of water and put two half-gallon containers of Gatorade in the Suburban..From time to time, customers had crossed the cocktail lounge to drop folding money into a fishbowl atop the piano, tips for the musician. A few had requested favorite -tunes..Happy weekend. His attitude amazed her, and his strength in the face of darkness gave her courage..Under a sullen afternoon sky, in the winter-drab hills, the yellow-and-white station wagon was a bright arrow, drawn and fired not from a hunter's quiver but from that of a Samaritan..The blinds were raised, the windows bare. Usually, she liked the smoky, reddish-gold glow of the city at night, but this once it made her uneasy..Because he hadn't heard Victoria Bressler speak in so long-and then only on two occasions-and because the woman on the phone had spoken so softly, Junior couldn't tell whether or not their voices were one and the same..From his first birthday to his third, Barty made worthless all the child-care and child-development books that a first-time mother relied on to know what to expect of her offspring, and when. Barty grew and coped and learned according to his own clock.."But in 'This Momentous Day,' Bartholomew is just the disciple, the historical figure, and he's also a metaphor for the unforeseen consequences of even our most ordinary actions."..Vanadium's smile, in that tragically fractured face, might have alarmed most people, but Kathleen found it appealing because of the indestructible spirit it revealed..Surprisingly, he received a lot of gratification from voicing this insult, even though Vanadium was too dead to hear it.."Most tornadoes stay on the ground twenty miles or less," Edom explained, "but this one kept its funnel to the earth for two hundred nineteen miles! And it was one mile wide. Everything in its path--torn, smashed to bits. Houses, factories, churches, schools--all pulverized. Murphysboro, Illinois, was wiped off the map, erased, hundreds killed in that one town."..Frankness and tough talk pleased her, because too many people dealt with her as though her spirit were as frail as her limbs. She laughed with delight-but still refused him.."I suspect," Tom said, "that any job you set your mind to, you'd be as good as you are at teeth."..Her name was Victoria Bressler, and she was an attractive blonde. She would never have been serious competition For Naomi, because Naomi had been singularly stunning, but Naomi, after all, was gone..He ran gasping, praying, feet slapping the concrete sidewalk, frightening birds out of the purple brightness of blossom-laden jacarandas and out of Indian laurels, terrorizing a tree rat into a lightning sprint up the bole of a phoenix palm. The few people he encountered reeled out of his way. Brakes shrieked as he crossed intersections without looking both ways, risking cars and trucks and rhinoceroses..He went directly to the kitchen and drew a glass of water at the sink faucet. He swallowed two antiemetic tablets that he had brought with him, to guard against vomiting..Escorting her home didn't require either a car or a long walk, because she lived upstairs in the hotel where he'd had dinner. The top three floors of the building featured enormous owner-occupied apartments.."Not really. I love you, Mommy." He yawned and dropped into sleep with a quickness that always amazed her. And then everything changed in one stunning moment. Changed profoundly and forever..In the living room, he removed a decorative pillow from the sofa. He carried it into the foyer..Applying enough pain, he could have gotten cooperation even from Vanadium. The detective had said he'd heard Junior fearfully repeat Bartholomew in his sleep, which Junior believed to be true, because the name did resonate with him; however, he wasn't sure he believed the cop's claim to be ignorant of the identity of this nemesis..Spinning off the stool, he had also spun out of control. Second by second, twin storms of anger and fear whirled stronger within him..Opening the directory to the marker, he found a card tucked between the pages. A joker, with

BARTHOLOMEW in red block letters..Vanadium's wounds were too grievous to pass for accidental injuries. Even if there were some way to disguise them through clever staging, no one would believe that Victoria had died in a freak fall and that Vanadium, rushing to her side, had slipped and tumbled and sustained mortal head injuries, as well. Such a strong whiff of slapstick would put even the Spruce Hills police on to the scent of murder..Eventually he approached the door between the dining room and the kitchen. He paused there, listening..They had not come to Junior yesterday in their grief, if in fact they had thought to grieve..While Junior had been hospitalized , Vanadium had searched his lace, with or without a warrant. Turnabout was satisfying..The chest respirator, which Joshua had evidently applied, lay discarded on the bedclothes beside her. She seldom required this apparatus to assist her breathing, and then only at night..Tears burst from Junior, stinging torrents, a salt sea of grief that blurred his vision and bathed his face in brine. "Get out of here, you disgusting, sick son of a bitch," he demanded, his voice simultaneously shaking with sorrow and twisted by righteous anger. "Get out of here now, get out!".In the physician's eyes, a yearning to believe. In his face, a squint of skepticism.. "I'm not sad," Tom said, "because though I have this face here in this world, I know there's another me-in fact, lots of other Tom Vanadiums-who don't have this face at all. Somewhere I'm doing just fine, thank you..".They didn't mind, and down they went in a controlled descent that was nevertheless too quick for Agnes..A few minutes after dawn, in excellent weather, they flew out of Sacramento, bound for Eugene. Junior would have enjoyed the scenery if his face hadn't felt as if it were gripped by a score of white-hot pliers in the hands of the same evil trolls that had peopled all the fairy tales that his mother had ever told him when he was little.
