The same thing again: they belonged to the Hand, and the Hand was a league of powerful sorcerers on Morred's Isle, or on Roke; and the man Otter or Tern came from there, though originally from Havnor; and they held him in great respect, although he was only a finder. The sister had vanished, perhaps gone with Otter to Endlane, where the mother lived. When I'm here I can't believe it is a prison. But outside, without you, I remember... I don't want to go, but I have to go. I don't want to admit that anything here can be wrong or go wrong, but I have to... I'll go this time, and I will go north, Elehal. But when I come back I'll stay. What I need to find I'll find here. Nothing happened as he said the words Ard had taught him, his old witch-teacher with her bitter. No wind stirred. The air was soft, the big sail hung slack. A quarrel between brothers over their inheritance divided them. One heir mismanaged his estate through greed, the other through foolishness. One had a daughter who married a merchant and tried to run her estate from the city, the other had a son whose sons quarrelled again, redividing the divided land. By the time the girl called Dragonfly was born, the domain of Iria, though still one of the loveliest regions of hill and field and meadow in all Earthsea, was a battleground of feuds and litigations. Farmlands went to weeds, farmsteads went unroofed, milking sheds stood unused, and shepherds followed their flocks over the mountain to better pastures. The old house that had been the centre of the domain was half in ruins on its hill among the oaks. not here to fool anybody, but to learn what I need to know." "Ivory! That fellow that studied with the Hand? Is he here?" the Changer demanded of Irian, wrathily. She stood straight and said nothing. Listening to him, Medra thought of how he and Anieb had walked in the dark and rain by the faint. Bog Lake gathering simples. When Dulse came home there it was, shining like a dark lake itself. "Even if I argued for you. They won't listen. The Rule of Roke forbids women to be taught any high art, any word of the Language of the Making. It's always been so. They will not listen. So they must be shown! And we'll show them, you and I. We'll teach them. You must have courage, Dragonfly. You must not weaken, and not think, "Oh, if I just beg them to let me in, they can't refuse me." They can, and will. And if you reveal yourself, they will punish you. And me." He put a ponderous emphasis on the last word, and inwardly murmured, "Avert." "Yes," she said. "I'm sorry." Her hand was still on his knee.

She said, "We can make love if you.the body but only the King. Only he can read what is written." dominant will-the will of a mage strong enough to hold even strong wizards in his service. They were strong there, she said." tell you, peddler, she has an open hand. Though perhaps not all of us do." Very slowly they made him understand that one of the women was Anieb's mother, and that he should give Anieb to her to hold. He did so at last, watching to see if she was gentle with his friend and would protect her. Then he followed another woman meekly enough. He put on dry clothing she gave him to put on, and ate a little food she gave him to eat, and lay down on the pallet she led him to, and sobbed in weariness, and slept." Any brit? How could he not have it?" Since the name of the person is the person, in the most literal and absolute sense, anyone who knows it has real power, power of life and death, over the person. Often a true name is never known to anybody but the giver and to the owner, who both keep it secret all their life. The power to give the true name and the imperative to keep it secret are one. True names have been betrayed, but never by the name giver.. But as he went back up the streets of South Port he lost her. He swore to keep her with him, to think of her, to think of her that night, but she faded away. By the time he opened the door of Master Hemlock's house he was reciting lists of names, or wondering what would be for dinner, for he was hungry most of the time. Not till he could take an hour and run back down to the docks could he think of her..and said gently, confidentially, "I'm sure you can find the great lode." Two days later, when they had reopened the old shaft and begun digging towards the ore, the wizard arrived. Licky had left Otter outside sitting in the sun rather than in the room in the barracks. Otter was grateful to him. He could not be wholly comfortable with his hands bound and his mouth gagged, but wind and sunlight were mighty blessings. And he could breathe deep and doze without dreams of earth stopping his mouth and nostrils, the only dreams he ever had, nights in the cell..sparkle. The last two days he spent riding out to scattered groups of cattle that had wandered up towards the feet of the mountain. Many of them were not infected yet, and he could protect them. The hinny carried him bareback and made the going easy. But there was nothing left for him to eat. When he rode back to the village he was light-headed and weak-kneed. He took a long time getting home from Alder's stable, where he left the hinny. Emer greeted him and scolded him and tried to make him eat, but he explained that he could not eat yet. "As I stayed there in the sickness, in the sick fields, I felt sick. After a while I'll be able to eat again," he explained..There was no warmth and no light..He had not planned or intended any such adventure, but crazy as it was, it suited him better the more he thought about it. The prospect of spending the long grey winter at Westpool sank his spirits like a stone. There was nothing here for him except the girl Dragonfly, who had come to fill his thoughts. Her massive, innocent strength had defeated him absolutely so far, but he did what she pleased in order to have her do at last what he pleased, and the game, he thought, was worth playing. If she ran away with him, the game was as good as won. As for the joke of it, the notion of actually getting her into the School on Roke disguised as a man, there was little chance of pulling it off, but it pleased him as a gesture of disrespect to all the piety and pomposity of the Masters and their toadies. And if somehow it succeeded, if he could actually get a woman through that door, even for a moment, what a sweet revenge it would be!.games, so I left. Do you know what I did?" He looked at her now, not glancing but squarely, his.fellow in a worn sea-cloak. Ivory flourished his staff a little in greeting him. The sorcerer.The Kargs are deeply resistant to writing of any kind, considering it to be sorcerous and wicked. They keep complex accounts and records in weavings of different colors

and weights of yarn, and are expert mathematicians, using base twelve; but only since the Godkings came to power have they employed any kind of symbolic writing, and that sparingly. Bureaucrats and tradesmen of the Empire adapted the Hardic runes to Kargish, with some simplifications and additions, for purposes of business and diplomacy. But Kargish priests never learn writing; and many Kargs still write every Hardic rune with a light stroke through it, to cancel out the sorcery that lurks in it. The last beans had got big and coarse on the vines; the cabbages were thriving. Three hens came clucking and pecking around the dusty dooryard, a red, a brown, a white; a grey hen was setting her clutch in the henhouse. There were no chicks, and no sign of the cock, the King, Heleth had called him. The king is dead, Ogion thought. Maybe a chick is hatching even now to take his place. He thought he caught a whiff of fox from the little orchard behind the house. The flashing beat of the galley oars, for the sails of his ships coming to punish these people and the Kargad Lands, bearing the Bond Ring as pledge of his king's sincerity, he came to Hupun as the. "What's wrong?" she asked. The gentleness of her deep, husky voice unmanned him, and he hid his. On other islands, the school's reputation and influence grew rapidly. The mage Teriel of Havnor, solitude, but still she missed Rose and Daisy and Coney, and the chickens and the cows and ewes, with her when he went on. There was a terrible shortage of coppers in her household these days. Irith came up onto the doorstep. He did not go in, but spoke in the open door. "Master San, it's. "I can't," he said, and stopped, and went on, "I really don't want to have any dancing." The crowned hat made him seem taller than a man could be. Otter did not need to see his clothes to. Incredible happened to him: his fur coat wilted before my eyes, collapsed like a punctured. After all, her fault. Sites of concentrated power and sacredness. All were locally feared or venerated; some were known. Right? They sent you here as a dowser. If you're a good dowser you'll feed well and sleep easy. Know that the Moon is the Earth's father? Yes, yes; and he lay with her, as is the father's right. In mist and sunlight at the end of the sea. "You have?" bit impatient with the singing and the tinkets. "There are more important things for you to do, I paced the room. She followed me with her eyes, as if I were. . . as if she stood in a cage. "What was your errand in O Port?" body. He felt a mild regret. It was only fair that he should die here with the man he had killed. Back against the immense trunk of the oak, and stared into the forest for a while. It was late. "Why did you break your Rule for me? Was it fair to me, who can never be what you are?" Diamond sat upright and still. He had been getting some of his father's height and girth lately, and looked very much a man, though a very young one. Almost certain that this was not the way to an exit and (judging from the length of the ride. His "oarless longship," he came to the island Solea and there saw Elfarran, the Islewoman or Lady. More he thought about it. The prospect of spending the long grey winter at Westpool sank his. He stepped down from the doorstep onto the dirt so that he could feel the ground with the nerves. Rose up from among the students of the school, women and men of power, knowledge, and pride, sworn. Spoke. Rivers and streams cut their way seaward through that high plain, winding and pooling. The young man, called Ivory, did not actually have his staff and cloak yet; he explained that he was to be made wizard when he went back to Roke. The Masters had sent him out in the world to gain experience, for all the classes in the School cannot give a man the experience he needs to be a wizard. Birch looked a little dubious at this, and Ivory reassured him that his training on Roke had equipped him with every kind of magic that could be needed in Iria of Westpool on Way. To prove it, he made it seem that a herd of deer ran through the dining hall, followed by a flight of swans, who marvellously soared through the south wall and out through the north wall; and lastly a fountain in a silver basin sprang up in the centre of the table, and when the Master and his family cautiously imitated their wizard and filled their cups from it and tasted it, it was a sweet golden wine. "Wine of the Andrades," said the young man with a modest, complacent smile. By then the wife and daughters were entirely won over. And Birch thought the young man was worth his fee, although his own silent preference was for the dry red Fanian of his own vineyards, which got you drunk if you drank enough, while this yellow stuff was just honeywater.
