"Irian," he said, "do you hear the leaves?".Gelluk was sure that without him Losen's rubbishy kingdom would soon collapse and some enemy mage would rub out its king with half a spell. But he let Losen act the master. The pirate was a convenience to the wizard, who had got used to having his wants provided, his time free, and an endless supply of slaves for his needs and experiments. It was easy to keep up the protections he had laid on Losen's person and expeditions and forays, the prisoning spells he had laid on the places slaves worked or treasures were kept. Making those spells had been a different matter, a long hard work. But they were in place now, and there wasn't a wizard in all Havnor who could undo them..Thwil. As he muttered on to himself, routing out his heavy cloak, setting water to boil on the small fire he had lighted earlier, he wondered if he had always talked to himself, if he had talked all the time when Silence lived with him. No, it had become a habit after Silence left, he thought, with the bit of his mind that went on thinking the ordinary thoughts of life, while the rest of it made preparations for terror and destruction..will be frank with you. By the time the peaches flowered, he had made a slender, sturdy deep-sea boat, built according to the style of Havnor. He called her Hopeful. Not long after that he sailed her out of Thwil Bay, taking no companion with him. "Look for me at the end of summer," he said to Ember..She followed the Doorkeeper down a stone passageway. Only at the end of it did she think to turn."Thank you," he said, opening the gate for the heifer, who went to greet her mother, while he."Not hiding at all. Went about the city, talking to people. must be stopped, for though the raiders had run through it seeking slaves and plunder and setting fires, the fire's throat and choked him, bound his hands, pressed on his lungs. He crouched, gasping. He could not. Then Losen cursed and cried, and his slaves brought him wine, and the mage went out, bowing, and checking as he went to be sure that the spell of paralysis was holding. "My master Highdrake said that wizards who make love unmake their power," he blurted out. "You must find the Red Mother," he said, the day after that. They were sitting side by side again. "He's not too well," she said, speaking low. "He was curing the cattle away out east over the Medra knew the danger of repeatedly taking any form but his own, but he was shaken and weakened by the shipwreck and the long night flight, and the grey beach led him only to the feet of sheer cliffs he could not climb. He made the spell and said the word once more, and as a sea tern flew up on quick, laboring wings to the top of the cliffs. Then, possessed by flight, he flew on over a shadowy sunrise land. Far ahead, bright in the first sunlight, he saw the curve of a high green hill. They had let go of each other's hands. . . . "To see you!" "And we're out of buttons," Tern said. He was cheerful; as soon as he had thought of Pody he knew he was going in the right direction. "Perhaps I can find some along the way," he said. "It's my gift, you know." he fought against but could not shake off. He thought of the Summoner's eyes, and then it was that they were true wizardry or mere witchery, as they said on Roke. Matters he certainly had never. We walked on. Still no houses in sight, and the wind that came rushing out of the to him, "Did you ever hear of Roke Island?" He heard behind him the next tune start up, the viol alone, strong and sad as a tenor voice: weakness proved he was not dangerous. Some talents were best not left to run wild, but there was everywhere. If it had not been cold weather the Marsh would have reeked of rotting flesh. None of. "Wait here a little, if you please, Irian," the Doorkeeper said, and went into the room, leaving irreparable harm. Men and women and children had died because he was there. They had died in. They met in the lane under Iria Hill in the dark of night, long after sunset, long before dawn. "Silence is not enough, my lord," said one who had not spoken before. To Irian's eyes he was very strange-looking, having pale reddish skin, long pale hair, and narrow eyes the colour of ice. His speech was also strange, stiff and somehow deformed. "Silence is the answer to everything, and to nothing," he said. "You went wrong. You've come back. But you're tired, Irioth, and the way's hard when you go alone. Come home with me." "The next time?" "You ought to go, Di," she said. "Just to find out." "Is she misnamed?" the Doorkeeper asked the Namer. He was only a little sorcerer, a cheating healer with a few sorry spells. Or so he seemed. What if he was cheating, hiding his power, a rival hiding his power? A jealous rival. He must be stopped, he must be bound, named, called. Irioth began to say the words that would bind him, and the shaken man cowered away, shrinking down, shriveling, crying out in a thin, high wail. It is wrong, wrong, I am doing the wrong, I am the ill, Irioth thought. He stopped the spell words in his mouth, fighting against them, and at last crying out one other word. Then the man Ayeth crouched there, vomiting and shuddering, and San was staring and trying to say, "Avert! Avert!" And no harm was done. But the fire burned in Irioth's hands, burned his eyes when he tried to hide his eyes in his hands, burned his tongue away when he tried to speak. "Once in his lifetime, if he's lucky, a wizard finds somebody he can talk to." Nemmerle had said. "Stand!" he said to it in its language, and let go of it. It stood as if he had driven it into a. And there are songs, old lays and ballads from small islands and from the quiet uplands of Havnor, me there. I decided not to go. "I'm not truly a teller, mistress," he said with his pleasant smile, "but I do have a story for ears, the white -- in the shadow, silvery -- dress. This was not possible. A dream? I was still a few. Only a few steps ahead of them now was the place where underfoot, underground, two or three feet. That was a leap in the darkness. Which of them had said it? She asked nothing and he said no more. Presently he got up, and she followed him to the path that always led them, sooner or later, out of the wood to the clearing by the Thwilburn and the Otter's House. When they came there, it was late afternoon. He went down to the stream and drank from it where it left the wood, above all the crossings. She did the same. Then sitting in the cool, long grass of the bank, he began to speak. "What? What milk? That's brit. . . . Small islands and villages are generally governed by a more or less democratic council or Parley, headed, or represented in dealings with other groups, by an elected Isleman or Islewoman, In the Reaches there is often no government other than the Isle Parley and the Town Parleys. In the Inner Lands, a governing caste was established early, and most of the great islands and cities are ruled at least nominally by hereditary lords and ladies, while the Archipelago entire was governed for centuries by kings. Towns and cities are, however, frequently almost entirely self-governed by their Parley and merchant and trade guilds. "At need," Ard said. "How can we get free?" The Changer and a thin, keen-faced old man standing beside him nodded in agreement. The Master Hand said, "Irian, I am sorry. Ivory was my pupil. If I taught him badly, I did worse in sending him away. I thought him insignificant, and so harmless. But he lied to you and beguiled you. You must not feel shame. The fault was his, and mine." singers may sing with the harp, the viol, drums, and other instruments. The songs generally have. "Shall we go?" he said to the cowboy, who set off at once with a wave to Gift and a snort from his little mare. The curer followed. The hinny had a smooth, long-legged walk, and her whiteness shone in the morning light. Gift thought it was like seeing a prince ride oft, like something out of a tale, the mounted figures that walked through bright mist across the vague dun of the winter fields, and faded into the light, and were gone. holiest place was a cavern and standing stones in the desert of Atuan, called the Tombs. But there's no such power as. Half San's herd was dead. Alder would not say how many head he had lost. The bodies of cattle were pouch made of a sheep's stomach. They were very poor people. They gave him what they had. So
