

# H AND DISEASE WITH PRACTICAL REMARKS ON THE PREVENTION AND TREATM

She was of two minds about this. She wanted him, wanted to be held and cherished, to satisfy him and to be satisfied. But she was the daughter of a minister: The concept of sin and consequences was perhaps less deeply ingrained in some daughters of bankers or bakers than in a child of a Baptist clergyman. She was an anachronism in this age of easy sex, a virgin by choice, not by lack of opportunity. Although she'd recently read a magazine article containing the claim that even in this era of free love, forty-nine percent of brides were virgins on their wedding day, she didn't believe it and assumed that she'd chanced upon a publication that had fallen through a reality warp between this world and a more prudish one parallel to it. She was no prude, but she wasn't a spendthrift, either, and her honor was a treasure that shouldn't be thoughtlessly thrown away. Honor! She sounded like a maid of old, pining in a castle tower, waiting for her Sir Lancelot. I'm not just a virgin, I'm a freak! But even putting the idea of sin aside for a moment, assuming that maidenly honor was as pass? as bustles, she still preferred to wait, to savor the thought of intimacy, to allow expectation to build, and to start their conjugal life together with no slightest possibility of regret. Nevertheless, she had decided that if he was ready for the commitment that she believed he'd already teetered on the edge of expressing three times, then she would set aside all misgivings in the name of love and would lie down with him, and hold him, and give of herself with all her heart..He considered calling her, but he didn't know what he would say if she answered..Junior said nothing. He was still upset with Naomi for hiding the pregnancy from him, but he was delighted that the baby would have been his. Now Vanadium couldn't claim that Naomi's infidelity and the resultant bastard had been the motive for murder..That every mortal semblance took..The walk-in closet, which Vanadium next explored, contained fewer clothes than he expected. Only half the rod space was being used. A lot of empty hangers rang softly, eerily against one another as he conducted a casual examination of Cain's wardrobe..Angel followed him at two steps, and when she stood beside his chair, watching him open the soft drink, Barty said, "Why were you following me?""No," Agnes said, shaking loose the grip of irrational fear. "Wait. This is absurd. It's just a card. And we're all curious..".With his mother, his uncles, and Maria hovering just two steps behind, Barty followed the driveway, not bothering with the cane, keeping his right foot on the concrete, his left foot on the grass, until he came to a jog in the pavement, which apparently he'd been seeking. He stopped, facing due north, considered for a moment, and then pointed due west: "The oak tree's over there..".When the convulsive seizure passed, as he collapsed back on the spattered pillow, shuddering at the stench rising from his hideously fouled clothes, Junior was suddenly struck by an idea that was either."September 20, 1902, Birmingham, Alabama, church fire--one hundred fifteen dead. March 4, 1908, Collinwood, Ohio, school fire, one hundred seventy-six dead..".Supposing that this new enthusiasm was an attempt to uncover skullduggery in Seraphim's accident, then the girl would be doing Junior a service even after her demise. Whether or not the traffic accident was an accident, Junior hadn't had anything to do with it..".New York City, March 25, 1911, the Triangle Shirtwaist factory fire-one hundred forty-six dead..".Having survived the night, Edom and Jacob were waiting in the hall. Each kissed his nephew, but neither could speak..That was the first-and until now the last-long walk he made with a purpose in mind. He went to see a hero..faiths and inhibiting rules that confused humanity, when he was sufficiently enlightened to believe only in himself, he would be able to trust his instincts, for they would be free of society's toxic views, and he would be assured of success and happiness if always he followed these gut feelings..Reading about child prodigies, Agnes learned that most if not all math whizzes also possessed musical talent. To a lesser but still impressive extent, many young geniuses in the music world were also proficient at math..Neddy, dressed for work but overdressed for his own funeral, slumped against the wall, head bowed, chin on his chest. His pale hands were splayed at his sides, as though he were trying to strike chords from the floor tiles..A plate-size piece of the door had been blasted away. Because of the light shining through from the room beyond, Junior could see that no part of the lock remained intact. In fact, he peered through the hole in the door to the back of a piece of furniture that was jammed against it, whereupon the nature of the problem became clear to him..Paul was a dear man, different from Joey in appearance but so like him at heart. She shocked him by insisting they go at once to his house, to his bedroom. Red-faced as no pulp hero ever had been, Paul stammered out that he wasn't expecting intimacy of her so soon, and she assured him that he wasn't going to get it so soon, either..A sense of fellowship in extraordinary times drew everyone closer, to hug, to touch, to share the wonder. For a long moment, even in the symphony of the storm, in spite of all the plink-tink-hiss-plop-rattle that arose from every rain-beaten work of man and nature, they seemed to stand here in a hush as deep as Tom had ever heard..He backed toward the hall door, watching as the fire spread. After lingering until certain that the house would soon be a seething pyre, he finally sprinted along the hall to the front door..His waitress was a cutie. She flirted with him, and he knew he could have her if he wanted..He hurried into the bedroom and switched on the nightstand lamp, without concern for whether the light might be seen from the street..".Oh," Celestina White replied, "yes, every day. I'm currently engaged on an entire series of works inspired by Bartholomew..".Like all women past puberty and this side of the grave, she was attracted to him. She never told him as much, not in words, but he detected this attraction in the way she looked at him, in the tone that she used when she spoke his name. Throughout three weeks of therapy, Seraphim revealed countless small but significant proofs of her desire..might be grumpy and would certainly be torpid, bleary-eyed, and uncommunicative. Angel awake was always fully awake, soaking up color texture-mood, marveling in the baroque detail of Creation, and generally lending support to the apperception--test prediction that she might be an art prodigy..Somewhere in the world he had a deadly enemy: Bartholomew, who had something to do with babies, a total stranger yet an implacable foe..As luck would have it," the nun said, "Dr. Lipscomb was in the when it happened. He'd just delivered another baby under..".Mom

always says that pigs will surely fly one day if ever Daddy chooses to convince them that they've got wings." Barty came out of the house with the library copy of Podkayne Of Mary, which his mother had promised to read to him later, in the hospital. "Are we all going?" he asked. Magusson considered the assaults on Victoria and on Vanadium to be hideous crimes, of course, but he also viewed them as affronts to his own dignity and reputation. He expected a felonious client, rewarded with four and a quarter million instead of jail time, to be grateful and thereafter to walk a straight line. "That's the roaster tower," said Licky. "Where they cook the cinnabar to get the metal from it. Roasters die in a year or two. Where to, dowser?". Settling onto the empty stool beside this beauty, Junior offered to buy her a drink, and she accepted. Even Rudy, as huge as Big Foot and as amoral as a skink, was afraid of this woman. Junior glanced over his shoulder even as Celestina turned and fled. He caught only a glimpse of her disappearing into the inner hallway. Casey and Tutti, her sister Skipper, and dreamboat Ken- and soon the girls had Barty enthusiastically involved in a make-believe world far different from the one in which Heinlein's teenage lead owned an extraordinary alien pet with eight legs, the temperament of a kitten, and an appetite for everything from grizzly bears to Buicks. Agnes delighted in their conversations. Barty was far ahead of the language learning curve for his age, but he was still a child, and his observations were filled with innocence and charm. "You mean your cold is like in your nose but not in your feet?". too quiet and too patient to be the living-dead incarnation of a murdered wife. This was a predatory silence, an animal cunning, not a supernatural hush. This was the elegant stillness of a panther in the brush. At the end, with the salt Tom and the pepper Tom standing side by side in their different but parallel worlds, Maria said, "Seems like science fiction." He didn't pause to lock the house behind them. Bright Beach, in 1965, was as free of criminals as it was untroubled by lumbering brontosaurus. Relieved but still wary, he toured the small house again to be sure doors and windows were locked. Raising one hand, wiggling the fingers, he said, "Toes, toes, toes, toes, toes." just as Sinatra broke into song again, Junior thought he heard a footstep on the wood floor of the hallway, and the creak of a board. The music masked the sounds of the visitor's approach if, indeed, he was approaching. When he killed the Bartholomew, this haunting would finally end, too. In Junior's mind, Vanadium and Bartholomew were inextricably linked, because it was the maniac cop who first heard Junior calling out Bartholomew in his sleep. Did that make sense? Well, it made more sense at some times than at others, but it always made a lot more sense than anything else. To be rid of the dead-but-persistent detective, he must eliminate Bartholomew. Furthermore, fear of the unknown is a weakness also because it humbles us. Humility, Caesar Zedd declares, is strictly for losers. For the purpose of social and financial advancement, we must pretend to be humble-shuffle our feet and duck our heads and make self-deprecating remarks-because deceit is the currency of civilization. But if ever we wallow in genuine humility, we will be no different from the mass of humanity, which Zedd calls "a sentimental sludge in love with failure and the prospect of its own doom." As long as Junior continued to fake sleep, the cop couldn't be absolutely sure that any deception was taking place. Vanadium hadn't seen the man who had clubbed him from behind and who had smashed his face with a pewter candlestick, but when he spoke the name Enoch Cain, the quality in his eyes was not compassion. No fingerprints had been left, no evidence in the aftermath of the fire at the Bressler house or in the Studebaker hauled from Quarry Lake. Her hands shook, her entire body shook, and in her mind was a hard clatter of fear like the wheels of a roller coaster rattling over poorly seamed tracks. In the noble ruin of his face, Thomas Vanadium's smoke-gray eyes were striking, filled with a beautiful ... sorrow. Not self-pity. He clearly didn't regard himself as a victim. This, Kathleen felt, was the sorrow of a man who had seen too much of the suffering of others, who knew the evil ways of the world. These were eyes that read you at a glance, that shone with compassion if you deserved it, and that glared with a terrifying judgment if compassion wasn't warranted. "Sure they do," Barty said. "But I think Maria embroidered the birds just because they were pretty." She whispered then: "You are my little lamplion, Barty. You light the way for me." Since childhood, he had been waiting for this moment-if indeed it was The Moment-and he had nearly lost hope that the much-desired encounter would ever come to pass. He had expected to find others with his perceptions among physicists or mathematicians, among monks or mystics, but never in the form of a three-year-old girl dressed all in midnight-blue except for a red belt and two red hair bows. He could have killed Vanadium while the cop slept; however, that would be far less satisfying than engaging in a little psychological warfare and leaving the devious bastard alive to suffer remorse when two more children died under his watch. If Junior had realized that they were driving only a block and a half, he wouldn't have followed them in the Mercedes. He would have gone the rest of the way on foot. When he pulled to the curb again, a few car lengths behind the Buick, he wondered if he had been spotted. Wait here in the car. Give them time to settle down. At this hour, they would put the kid to bed first. Then Ichabod and Celestina would go to their room, undress for the night. Both angry and mortified, yet still fearful, a walking multimedia collage of emotions, Junior left the gallery. If Cain had been attracted to one woman by her looks, surely he would be attracted to the other. And perhaps the sisters shared a quality other than beauty that drew Cain with even greater power. Innocence, perhaps, or goodness: both foods for a demon. So quick, this violence, over even as it began. Because he had no interest in aftermath, however, Junior suffered no disappointment at the briefness of the thrill. The past was past, and as he closed the front door and stepped around the body, he focused on the future. "Lock it anyway. And don't hang up. Stay on the line until the patrolmen get there." interminably against the ignition plate before, at last, he was able to insert it. "Should be a boy, because then you'll always have a man around the house." Yet had the obstacles been piled twice as high, the time had come to put into words what they felt for each other and to decide what they intended to do about it. Celestina knew that in depth and intensity, as well as in the promise of passion, Wally's love for her equaled hers for him; out of respect for her and perhaps because the sweet man doubted his desirability, he tried to conceal the true power of his feelings and actually thought he succeeded, though in fact he was radiant with love. His once-brotherly kisses on the

cheek, his touches, his admiring looks were all still chaste but ever more tender with the passage of time; and when he held her hand-as in the gallery this evening-whether as a show of support or simply to keep her safely beside him in a crosswalk on a busy street, dear Wally was overcome by a wistfulness and a longing that Celestina vividly remembered from Junior high school, when thirteen-year-old boys, their gazes filled with purest adoration, would be struck numb and mute by the conflict between yearning and inexperience. On three occasions recently, he seemed on the brink of revealing his feelings, which he would expect to surprise if not shock her, but the moment had never been quite right..Although she had slept well and though her hemorrhaging had been successfully arrested, Agnes was too weak to manage breakfast alone. A simple spoon was as heavy and as unwieldy as a shovel..Along the hall, every step measured, he stayed near the wall farthest from the staircase..Throughout this procedure, Barty appeared solemn and thoughtful. When he had squeezed the tenth toe, he stared at it, brow furrowed..A car waited at the curb in front of the park. Dr. Salks two associates stood beside it and seemed to have been there awhile..He swept the immediate area with the flashlight, and shadows spun with shadows, waltzing spirits in the ballroom of the night..Junior was stunned that the bitch had come back into his life, to ruin him, almost two years later. Zedd teaches that the present is just an instant between past and future, which really leaves us with only two choices-to live either in the past or the future; the past, being over and done with, has no consequences unless we insist on empowering it by not living entirely in the future. Junior strove always to live in the future, and he believed that he was successful in this striving, but obviously he hadn't yet learned to apply Zedd's wisdom to fullest effect, because the past kept getting at him. He fervently wished he hadn't simply broken up with Tammy Bean, but that he had strangled her instead, that he had strangled her and driven her corpse to Oregon and pushed her off a fire tower and bashed her with a pewter candlestick and sent her to the bottom of Quarry Lake with the gold Rolex stuffed in her mouth..Back in January, when he received the disappointing report from Nolly Wulfstan, Junior was not convinced that the private detective had exercised due diligence in his investigation. He suspected that Wulfstan's ugliness was matched by his laziness..She was in Paul's arms again, as though by magic, and he ran as fire broke through the cedar-shake shingles and as the roof shuddered under them. Airborne through billowing smoke. Across flames that briefly caressed the soles of his shoes..Glancing at her in the rearview mirror, the driver said, "Pretty exhilarating, huh? Your first big show?"..Among themselves, the authorities spoke more often than not in murmurs. Or perhaps Junior was too distracted to hear them clearly..Startled, the pianist turned to face him-and backed off a step, as though his personal space had been too deeply invaded. "Oh, well, thank you, that's kind. I love my work, you know, it's so much fun it hardly qualifies as work at all. I've been playing the piano since I was six, and I was never one of those children who whined about having to take lessons. I simply couldn't get enough."..For Junior, 1968-the Chinese Year of the Monkey--would be the Year of the Plastic Surgeon. He would require extensive dermabrasion to restore the smoothness and tone to his skin, to be as irresistibly kissable as he had been before. While at it, he would need surgery to make subtle changes in his features. Tricky. He didn't want to trade perfection for anonymity. He must take care to ensure that his postsurgery look, when he let his hair grow in and perhaps dyed it, would be as devastating to women as his previous appearance..Evidently, Jacob had made a quick trip to his apartment over the garage and, with no thought for mice and dust, had not closed the back door. Junior said, "You've caused me a lot of trouble, you know." He'd been building a beautiful rage all night, thinking about what he'd been through because of the girl's temptress mother, whom he saw so clearly in this pint-size bitch. "So much trouble."..Before the pianist could cry out, Junior drove him between the toilet and the sink, slamming him against the wall hard enough to knock loose his breath and to cause the water to slosh audibly in the nearby toilet tank..On this morning in March, minutes after the pie caravan had departed, Edom got his Ford Country Squire out of the garage and drove to the nursery, which opened early. Spring was drawing near, and much work needed to be done to make the most of the rosarium that Joey Lampion had encouraged him to restore. He happily contemplated hours of browsing through plant stock, tools, and gardening supplies..Darkrose and Diamond..Jolene started to refill his coffee mug-then thought better of it. "Maybe you don't need more caffeine, Edom."..Junior had expected these singular creatures, and he needed them to be as monstrous as they had always been in the past. Nonetheless, he shrank back against his pillows in dismay when they exploded into the hospital room. Their faces were as fierce as those of painted cannibals coming off a fast. They gestured emphatically, spitting expletives along with tiny bits of lunch dislodged from their teeth by the force of their condemnations..Celestina nodded, unable to respond to the aide's kindness. Sometimes kindness can shatter as easily as soothe..The poor girl's blood pressure soared in spite of the medication. She suffered a violent seizure..For guidance, Agnes couldn't rely entirely on any of the child rearing books in her library. Barty's unique gifts presented her with special parenting problems. Now, when he asked if he could stay up even later, to read about John Thomas Stuart and Lummo, John's pet from another world, she granted him permission..Barty rode with his mother in her green Chevrolet station wagon. Because the cakes, pies, and gifts were too numerous to be contained in one vehicle, Edom followed them in his flashier yellow-and-white '54 Ford Country Squire.."Don't you say that. The society isn't silly, especially not now. It's us, it's what we were and how we are, and I do so much love everything that's us."..As one, those around the table raised their eyes to the ceiling and smiled at the sound of the downpour. Barty, with patches over his empty sockets, also looked up with a smile..AT ST. MARY'S HOSPITAL, where Wally had brought Angel into this world three years ago, he was now fighting for his life, for a chance to see the girl grow and to be the father she needed. He'd been taken to surgery already when Celestina and Angel arrived a few minutes behind the ambulance.."I don't ... don't understand." Blinking sleepily, pretending to be still thickheaded from tranquilizers and whatever other drugs they were dripping into his veins, Junior was pleased by the note of perplexity in his hoarse voice, although he knew that even an Oscar-caliber performance would not win over this critic.."Well, maybe you're right,"

Bellini said somewhat acerbically, before departing, "but then you've had the advantage of an illegal search, while I'm hampered by such niceties as warrants." He pointed at his feet. "Toes, toes, toes, toes, toes, toes, toes, toes, toes, toes." He fiddled with the cylinder until it swung open. Five chambers, a gleaming cartridge in each. In a red coat with a red hood, Bartholomew appeared first in the arms of the tall lanky man, the Ichabod Crane look-alike, who also had a large tote bag hanging from his shoulder. "Why should I be afraid of a stumbling blind boy?" asked Junior again. But this time the words issued from him in a different tone of voice, because suddenly he sensed something knowing in this boy's attitude, if not in his manufactured eyes, a quality similar to what the girl exhibited. Victoria lived on the northeast edge of Spruce Hills, where streets petered into country lanes. Here the houses tended to be more rustic, built on larger and less formally landscaped lots than those closer to the center of town, and set back farther from the street. Angel returned to the table for apple juice and to announce, "They got a cookie-jar Jesus!" The candlestick was dry. Holding this pewter bludgeon with a paper towel, Junior replaced it on the table as he had found it. He picked up the candle from the floor and married it to the stick. Those who had just met her and those who were overly charmed by eccentricity called her Seraphim, her name complete. Her teachers, neighbors, and casual acquaintances called her Sera. Those who knew her best and loved her the most deeply--like her sister, Celestina called her Phimie. The candlestick was gone. The pedestal on which it had stood now held a Griskin bronze so devastatingly brilliant that one quick look at it would give nightmares to nuns and assassins alike. Later, after they finished eating but were still sitting at the table over coffee, the conversation turned solemn, although for the moment, the subject wasn't the late Harrison White. How long the two women and the girl must hide out, when and where they would be able to resume lives as normal as might still be possible for them: These were the issues of the moment. Getting out of the stuffy car into air much chillier than it had been when he'd left this place, Junior stood unsteadily as the police and the paramedics gathered around him. Then he led them through the wild grass to Naomi, moving haltingly, stumbling on small stones that the others navigated with ease. By nature, she was unable to hold fast to resentment, couldn't nurture a grudge, and was incapable of vengeance. She had forgiven even her father, who had put her through hell for so long, who had blighted the lives of her brothers, and who had killed her mother. Forgiving was not the same as condoning. Forgiving did not mean that you had to exonerate or forget. "Poker." Keeping his hands high, like a penitent confessing sin at a revival meeting and asking God to wash him clean, Obadiah said, "My specialty was close-up magic. Oh, I pulled a rabbit out of a hat more than once, silk scarves from thin air, doves from silk scarves. But close was my love. Coins, but mostly ... cards." Eventually, of course, dear Edom held forth about tornadoes--in particular the infamous Tri-State Tornado of 1925, which ravaged portions of Missouri, Illinois, and Indiana. The girl sucked in deep lungfuls of the weary clouds. "Better hold tight, Mommy, I'm gonna float." So Otter worked along with them with a clear head and an angry heart. They were in a trap. What's the use of a gift of power, he thought, if not to get out of a trap? Celestina stared out for a moment, and then turned her head to look at Tom, with both the shade of the night and the sparkle of the metropolis still captured in her eyes. "What was that all about?" "What was it like, Enoch? Did you look into her eyes when you pushed her?" Vanadium's uninflected monologue was like the voice of a conscience that preferred to torture by droning rather than by nagging. "Or doesn't a woman-killing coward like you have the guts for that?" She wouldn't answer him, but he was as convinced by her silence as he would have been by a blurted confession--or by a denial, for that matter. Her wild eyes convinced him, too, and her trembling mouth. Naomi had come back to be with him, and it could be argued that Seraphim had returned in a sense, too, for this girl was the flesh of Seraphim's flesh, born out of her death. After a long time the door opened and several men came in. He could do nothing against them as they gagged him and bound his arms behind him. "Now you won't weave charms nor speak spells, young'un," said a broad, strong man with a furrowed face, "but you can nod your head well enough, right? They sent you here as a dowser. If you're a good dowser you'll feed well and sleep easy. Cinnabar, that's what you're to nod for. The King's wizard says it's still here somewhere about these old mines. And he wants it. So it's best for us that we find it. Now I'll walk you out. It's like I'm the water finder and you're my wand, see? You lead on. And if you want to go this way or that way you dip your head, so. And when you know there's ore underfoot, you stamp on the place, so. Now that's the bargain, right? And if you play fair I will." face with one hand, as if pulling off cobwebs. "Did you say you were in my house?" "Paul told us the night he first came to the parsonage. About Agnes here ... and what had happened to Barty. And all about his late wife, Perri. I feel like I know Bright Beach already." Agnes rubbed noses with him again, kissed him, and rose from the edge of the bed. His thought had been that Reverend White might find in Agnes, Bright Beach's beloved Pie Lady, a subject who would inspire a sequel to the sermon that had so deeply affected Paul--who was neither a Baptist nor a regular churchgoer--when he had heard it on the radio more than three years ago. Now, Obadiah produced a pack of playing cards as though from a secret pocket in an invisible coat. "Like to see a little something?" Arriving home, he hesitated to open the door. He expected to find Vanadium inside. An hour later, when Barty decided he wanted a soda, he switched off the book and asked Angel if she would like something to drink.
