

ROE TO THE COURT OF THE GREAT MOGUL 1615 1619 AS NARRATED IN HIS JOURNAL

But he said nothing to the boy and nothing to the boy's mother. He was a consciously close-mouthed man, distrustful of visions until they could be made acts; and she, though a dutiful, loving wife and mother and housekeeper, already made too much of Diamond's talents and accomplishments. Also, like all women, she was inclined to babble and gossip, and indiscriminate in her friendships. The girl Rose hung about with Diamond because Tuly encouraged Rose's mother the witch to visit, consulting her every time Diamond had a hangnail, and telling her more than she or anyone ought to know about Golden's household. His business was none of the witch's business. On the other hand, Tangle might be able to tell him if his son in fact showed promise, had a talent for magery...but he flinched away from the thought of asking her, asking a witch's opinion on anything, least of all a judgment on his son..any put away, maybe."..been a hundred years ago. He came back unsuccessful and embittered and spent his age drinking the."No, no. I believe you, only. . . no. You can't understand this."..latest. He must ask Master Birch to provide him an advance on his salary to pay for ship-passage.Often her mind here seemed empty of thought, full of the forest itself, but this day memories came to her, vivid. She thought about Ivory, thinking she would never see him again, wondering if he had found a ship to take him back to Havnor. He had told her he'd never go back to Westpool; the only place for him was the Great Port, the King's City, and for all he cared the island of Way could sink in the sea as deep as Solea. But she thought with love of the roads and fields of Way. She thought of Old Iria village, the marshy spring under Iria Hill, the old house on it. She thought about Daisy singing ballads in the kitchen, winter evenings, beating out the time with her wooden clogs; and old Coney in the vineyards with his razor-edge knife, showing her how to prune the vine "right down to the life in it"; and Rose, her Etaudis, whispering charms to ease the pain in a child's broken arm. I have known wise people, she thought. Her mind flinched away from remembering her father, but the motion of the leaves and shadows drew it on. She saw him drunk, shouting. She felt his prying, tremulous hands on her. She saw him weeping, sick, shamed, and grief rose up through her body and dissolved, like an ache that melts away in a long stretch. He was less to her than the mother she had not known..came up on the muddy bank, and then the man crouched there, shivering..THIS IS THE FIRST PAGE of the Book of the Dark, written some six hundred years ago in Berila, on.Quite early on, impatient with wooing her massive physical indifference, he had worked up a charm, a sorcerer's seduction-spell of which he was contemptuous even as he made it, though he knew it was effective. He cast it on her while she was, characteristically, mending a cow's halter. The result had not been the melting eagerness it had produced in girls he had used it on in Havnor and Thwil. Dragonfly had gradually become silent and sullen. She ceased asking her endless questions about Roke and did not answer when he spoke. When he very tentatively approached her, taking her hand, she struck him away with a blow to the head that left him dizzy. He saw her stand up and stride out of the stableyard without a word, the ugly hound she favoured trotting after her. It looked back at him with a grin.."A real is. . . a real. . ." she repeated helplessly. "They are. . . stories. It's for watching."..I went outside. It was indeed a park. The trees rustled incessantly, invisible in the gloom. I..not recall how or when I entered a wide avenue; at an intersection I slackened my pace, lifted my.."Well, so I have to learn from him," said Dragonfly..Licky came back to the barracks with them. Gelluk bade Otter goodnight in his soft voice. Licky shut him as usual into the brick-walled room, giving him a loaf of bread, an onion, a jug of water..On his rides, he sometimes passed an old house on a hill among great oaks. When he turned off the village lane up the hill, a pack of scrawny, evil-mouthed dogs came pelting and bellowing down at him. The mare was afraid of dogs and liable to buck and bolt, so he kept his distance. But he had an eye for beauty, and liked to look at the old house dreaming away in the dappled light of the early summer afternoons.."Irian of Way," the Summoner said in his deep, clear voice, "that there may be peace and order, and for the sake of the balance of all things, I bid you now leave this island. We cannot give you what you ask, and for that we ask your forgiveness. But if you seek to stay here you forfeit forgiveness, and must learn what follows on transgression."..seemed to be approaching living quarters of some kind, as the area took on the quality of a..Yet he spoke as a friend. Nothing about him appeared insubstantial, but she thought he was not there, and when he stepped into the slanting sunlight and cast no shadow, she knew it..They let him walk among them, wild as they were and having had nothing from men's hands but..the grass..That is a stony matter," said the Namer..could be anything. But only in his own form could he think as a man, hide, decide, act as a man or as a wizard against the wizard who hunted him..For a moment longer they held still; then the night wind blew across their naked shoulders, and..not be lonely.."Yes, sir. I decided that I don't want to be a wizard."..slowly, slowly past. Ivory tried to tease her, but she only

shook her head. Maybe she was scared. "Yes," said the Patterner. "What goes too long unchanged destroys itself. The forest is for ever because it dies and dies and so lives. The dark sea was so quiet that the stars were reflected here and there on the sleek lee side of the long swells. Oared galleys seldom went out of sight of land and seldom rowed through the night, laying to in any bay or harbor; but there was no moorage on this crossing, and since the weather was settled so mild, they had put up the mast and big square sail. The ship drifted softly forward, her slave oarsmen sleeping on their benches, the free men of her crew all asleep but the helmsman and the lookout, and the lookout was dozing. Sorcery included both base crafts as defined by Halkel (finding, mending, dowsing, animal healing, etc.) and some high arts (human healing, chanting, weatherworking). A student who showed a gift for sorcery and was sent to Roke for training would first study the high arts of sorcery, and if successful in them might pursue his training in the art magic, especially in naming, summoning, and patterning, and so become a wizard. . most of the work.
