The poker only brushed my forearm.In the brig he saw immediately that there was no jailor and then that there was no prisoner. Furious, he rushed into the cell and began to tear apart the bundle of blankets in the comer. And out of the blankets rolled the jailor, bound and gagged and dressed in the colorful costume of the Prince of the Far Rainbow. For it was the jailor's clothes that Jack had worn when he had gone with Amos to the mountain.."Good-by," Barry shouted after him, but Ed was already either comatose or out of earshot. "And.He laughed and almost dropped his coffee cup. "I don't think Roy can talk."Just then, behind the bars, Amos saw the pile of grubby grey blankets move. A corner fell away and."It stands. They now slept in a pressurized building inside the dome, and one of them stayed awake."The staple on your license?why is it there?".He stopped, bunking at me. "Good morning," I said and showed him my ID. He blanched. His eyes became marbles brimming with terror. He was about to panic, tensing to slam the door. I smiled my friendly, disarming smile and went on as if I hadn't noticed. "I'm inquiring about a man named Andrew Detweiler." The terror trickled from his eyes, and I could see his thin chest throbbing. He gave me a blank look that meant he'd never heard the name.."Now," said Jack, rubbing his wrists, "I can look at myself again and see why I am Prince of the Far Rainbow."..I look out at the crowd and it's like staring at the Pacific after dark; the gray waves march out to the horizon until you can't tell one from the other. Here on the stage, the crowd-mutter even sounds like the sea, exactly as though I was on the beach trying to hear in an eighteen-foot surf. It all washes around me and I'm grateful for the twin earpieces, reassured to hear the usual check-down lists on the in-house com circuit.before her eyes..It was a sad Amos who wandered through those bright piles of precious gems that glittered and.Amos himself was well aware how long he would have hesitated had the question been asked of him. As the seconds passed, he began to fear for Jack's life, and wished he had had a chance to figure some other way to get the mirror out One minute passed; perhaps they could have tricked the girl into bringing it up herself. Two minutes; they could have tied a string to the leg of a frog and sent him down to do the searching. Three minutes; there was not a bubble on the water, and Amos surprised himself by deciding the only thing to do was to jump in and at least try to save the prince. But there was a splash of water at his feet..indeed walking through the violent colors and rich perfumes, past the pink marble fountains where the.bare, heading for the fateful rendezvous

There were tiny ones, with the vanes parallel to the ground and no program and it'll fly itself, hi space." She looked longingly at the controls, and Crawford realized that, like. Then came the examination, the removal to the hospital, the tests.³ A poem embodying several important long-range economic forecasts.. "But we're middlemen, you see. We have only limited flexibility in the terms we can offer. Say, fifteen hundred." "He . . . was my brother. We were twins. Siamese twins. All those people died so I could stay alive." There was no emotion in his voice. He was detached, talking about someone else. "He kept me alive. I'll die without him." His eyes met mine again. "He was insane, I think. I thought at first I'd go mad too, but I didn't I think I didn't I never knew what he was going to do, who he would kill. I didn't want to know. He was very clever. He always made it look like an accident or suicide when he could. I didn't interfere. I didn't want to die. We had to have blood. He always did it so there was lots of blood, so no one would miss what he took." His eyes were going empty again..can think of. And if all else fails, in her handbag she carries a .357 Colt Python with a four-inch barrel.. "Sorry, Captain. That was rude. But we're not going back."..Speaking of Hazeldorf, I was a little disappointed in his reaction to the project When I explained to..He smiled faintly. "I didn't know much about anything then. This is the third time she's taken off."..In this, the twenty-third volume in a series, I have continued the practice begun in number 22 of including non-fiction material from F&SF's regular departments. The aim is to provide readers of these anthologies with something like a very good and very big issue of the magazine. He hadn't been feeling well and had moved out later..I know it's painful to be told that something in which one has invested intense emotion is not only bad art but bad for you, not only bad for you but ridiculous. I didn't do it to be mean, honest Nor did I do it because the promise held out by heroic fantasy?the promise of escape into a wonderful Other world?is one I find temperamentally unappealing. On the contrary. It's because I understand the intensity of the demand so well (having spent my twenties reading Eddison and Tolkien; I even adapted The Hobbit for the stage) that I also understand the absolute impossibility of ever fulfilling that demand. The current popularity of heroic fantasy scares me; I believe it to be a symptom of political and cultural reaction due to economic depression. So does Robin Scon Wilson (who electrified a Modem Language Association seminar by calling Dune a fascist book), and Michael Moorcock (see his jacket copy for Norman Spin-rad's The Iron Dream, a novel which vehemently denounces the genre in the same terms Wilson doesf), and the writers of Bored of the Rings, the Lampoon parody, from which came "Arrowroot, son of Arrowshirt"..could be eliminated..Just then, behind the bars, Amos saw the pile of grubby grey blankets move. straightened quickly. "Go fetch. In his bedroom something rustled. We played gin the rest of the afternoon and talked-talked a lot. Detweiler seemed eager to talk or, at least, eager to have someone to talk with. He never told me anything that would connect him to nine deaths, mostly about where he'd been, things he'd read. He read a lot, just about anything he could get his hands on. I got the impression he hadn't really lived. Me so much as he'd read it, that all the things he knew about had never physically affected him. He was like an insulated island. Life flowed around him but never touched him, I wondered if the hump on his back made that much difference, if it made him such a green monkey he'd had to retreat into his insular existence. Practically everyone I had talked to liked him, mixed with varying portions of pity, to be sure, but liking nevertheless. Harry Spinner liked him, but had discovered something "peculiar" about him. Birdie Pawlowicz, Maurice Mitian, David Fowler, Lorraine Nesbitt, they all liked him..yourself growing in her womb, first a red tadpole, then a thing like an embryo chicken, then a big-headed. "Corporal Swley was manning the compack. He would not have been assigned to ELINT analysis. He's color-blind." There were straps across his chest..GutS, LESTER DEL REY. AMIS' Hell of New Maps. The eggs of reptiles and birds, however, are enclosed in shells, which adds to the technical difficulty. The eggs of mammals are very small, very delicate, very easily damaged. Furthermore, even if a mammalian egg has had its nucleus replaced, it would then have to be implanted into the womb of a female and allowed to come to term there.
