It was not dry yet, and only smeared about on his skin. "I hate mud," he whispered. Then he snapped his jaws and stopped trying to clean his legs. "Dirt, dirt," he said, gently patting the ground he sat on. Then, very slow, very careful, he began to speak the spell of calling..to do it, making the spell very carefully. It was the reversal of a finding charm: a losing charm.. "Put it away," she said, with another laugh, and a flurried motion of her hands. "But the spirit of rivalry worked in the boy as he grew to be a man. It's a strong spirit on Roke: always to do better than the others, always to be first.. The art becomes a contest, a game. The end becomes a means to an end less than itself.. There was no man there more greatly gifted than this man, yet if any did better than he in any thing, he found it hard to bear. sea is between two great headlands, the Gates of the Port, the Armed Cliffs, not a hundred feet apart. They are safe from sea-pirates in Gont Port. But their safety is their danger; the long bay follows a fault in the earth, and jaws that have opened may shut. He stood tongue-tied. After a while she looked up at him. "No," she said in a soft, quiet voice, "I don't think it's true. I think all the true powers, all the old powers, at root are one." "They're men of the Hand, Dory, one short and pretty and one tall and proud, and they say they're seeking papers. I know you had some once, though you may not now. They've nothing you need in their pack, but it might be they'd pay a bit of ivory for what they want. Is it so?" She turned her bright eyes on Tern, and he nodded. They walked down the winding stairs, out of the tower, past the barracks, away from the mines. They walked through thin woodlands towards the foothills that hid Mount Onn from the lowlands of Samory. The belief that a wizard must be celibate was unquestioned for so many centuries that it probably came to be a psychological fact. Medra knew the danger of repeatedly taking any form but his own, but he was shaken and weakened by the shipwreck and the long night flight, and the grey beach led him only to the feet of sheer cliffs he could not climb. There were two others, one equal, one greater. There was birth. When the Lord of the Western Land came to his domain near Glade, Golden was glad to show him fealty. The Lord was born to govern and to keep the peace, as Golden was born to deal with commerce and wealth, each in his place; and each, noble or common, if he served well and honestly, deserved honor and respect. But there were also lesser lords whom Golden could buy and sell, lend to or let beg, men born noble who deserved neither fealty nor honor. Power of birth and power of money were contingent, and must be earned lest they be lost.. "I'm a finder," he said. "And a seeker.". Very few people ever spoke to Gelluk unless he compelled them to. The spells by which he silenced, weakened, and controlled all who approached him were so habitual to him that he gave them no thought. He was used to being listened to, not to listening. Serene in his strength and obsessed with his ideas, he had no thought beyond them. He was not aware of Otter at all except as a part of his plans, an extension of himself.
